EDUCATION

GITAM University

Bachelor of Technology in Computer Science Engineering - **CGPA: 8.63**

Narayana Junior College XII - **Percentage: 83%**

Sept 2022 – Sept 2026

Visakhapatnam, India

June 2020 – June 2022

Ananthapuramu, India

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, C, C++
- **Development:** React.js, Next.js, Nuxt.js, PostgreSQL, Prisma, MySQL, MongoDB, Firebase, Redis, Recoil, Docker, WebRTC, Express, Flask, Node.js, GIT

EXPERIENCE

Full Stack Developer Intern

AtiUttam

May 2024 – Aug 2024

Remote

- **Led team** for the development of a comprehensive Charting Platform using **Vue.js, Express, Flask, socket.io**, focusing on robust functionality and user experience.
- Implemented an **Express API** with **socket.IO** and a **Flask backend** to efficiently handle **real-time and historical data streaming**.
- Developed charting tools (**Fibonacci retracement, Range tool**) using **Vue.js** and integrated **multi-timeframe support**.
- Implemented **symbol search Pop-up** for **filtering** of stocks, indices, and forex.
- Integrated **Cloudflare proxy** for security and optimized performance, and **managed deployment on Azure**.

COMMUNITY

Web Contributor

Google Developer Groups (GDG)

Oct 2024 – Dec 2024

Visakhapatnam, India

- Designed and implemented the **back-end system** for **DevFest 2024**, facilitating more than **90+ volunteer registrations**.
- Contributed significantly to the **Nuxt.js, Firebase** based **participant registration codebase**, resulting in more than **700+ registrations**. And acquired **60.4K traffic** on the website in **24 hours**. And overall, **1.1M traffic** was acquired.

PROJECTS

BillBot AI 📄 | [Next.js](#), [Redis](#), [Prisma](#), [PostgreSQL](#), [Express](#), [Typescript](#), [TailwindCSS](#), [Gemini AI](#)

- Converts simple text from the user into a professional invoice, including business details.
- Automated 80% of the process using microservices, Gemini, and Puppeteer, ensuring a seamless backend architecture.

Material You React 📄 | [React](#), [Typescript](#), [Rollup](#)

- A comprehensive **NPM** library of React components that features our independent implementation of Google's Material You Design system.

Ryoku UI 📄 | [Figma](#), [UI Design](#)

- Designed a user-centered, visually engaging UI that effectively communicates the value proposition of an AI-powered platform.

COURSES AND CERTIFICATIONS

Full Stack Web Development Course 📄

[MySQL - Udemy 📄](#)

Cloud Digital Leader Learning Path 📄

ACHIEVEMENTS

- **1st** – Shore 2025 Web-Dev Sustainability Hackathon.
- **2nd** – GitHub Community Hackathon.
- **3rd** – Techonova Hackathon 2024: Built a Genkit AI-powered tool in TypeScript to retrieve nutritious recipes with metrics.
- **Finalist** – Citizen Miracle Hackathon 2024.
